- B. The studies or activities must be approved in advance, in accordance with the school's established procedures for curriculum approval and determination.
- C. Each such study or activity, and the participation of each study therein, must be conducted or periodically reviewed by a member of the faculty to insure that in its actual operation it is achieving its educational objectives and that the credit allowed therefore is, in fact, commensurate with the time and effort expended by, and the educational benefits to, the participating student.
