

**Evidence**  
**Professor Charles W. Ehrhardt**  
**Spring 2012**

First Assignment: **This course in Evidence will be taught using the problems in Cases and Materials on Evidence (2012 edition), which I wrote. In preparing to discuss each problem in class, you should read and analyze all of the materials cited in connection with the problem. The problems included in these materials are keyed to the Florida Evidence Code [cited as FEC], Federal Rules of Evidence [cited as FR], and to McCormick on Evidence (6th Student ed. 2006) [cited as McCormick].**

**For the first class, read and prepare to discuss the problems on pages 49-51 of Problems and Cases on Evidence (2012 ed.) which are available in the Copy Center and in the Course Library on Blackboard.**
