Dear Ms. Lewis:

Thank you so much for taking the time to interview me yesterday at the Florida State University College of Law. I thoroughly enjoyed our discussion and only regret that we were not able to talk longer.

Having worked in the Orlando community, I was aware of your firm's excellent reputation. My interview only confirmed my initial impression that I would like to become professionally associated with your firm. The opportunity to practice in the field of commercial litigation, while still being able to explore other areas of the law (such as our mutual interest in family law) is very appealing to me.

I hope that you will seriously consider me for a position with your fine firm. Again, it was a pleasure speaking with you. I look forward to hearing from you in the near future.

Sincerely yours,

Brad Pitt
